West Humberstone Agencies Ltd are pleased to announce the launch of their new insurance scheme specifically for electric powered mopeds. The scheme is underwritten by Chaucer insurance who are a major UK based insurance company. Most insurers appear to be charging what we consider to be excessive rates for this type of vehicle mainly because they are a comparatively new type of vehicle. We have therefore negotiated a very competitive rate specifically for these vehicles with premiums typically ranging between £100 - £200.

Key points are as follows:

Cover: Comprehensive / Third Party Fire and Theft / Third Party Only.

Insurance Documents: Documents are issued at our head office based in Leicester enabling us to send a cover note on the same day by fax or post to the dealership or client (this will assist in the registering of the mopeds).

Age requirements: We are aiming this scheme towards the 25 year old plus commuter. Quotes will be considered for the under 25s subject to driving history.

Driving record: We would obviously prefer a clean driving history but again we will give sympathetic consideration to all quotation requests. The scheme is not subject to a no claims bonus and so if you have a car or second vehicle we will not require proof of no claims bonus. This makes the whole process easier for you and us.

Quotations or queries are handled at our head office. Please call free on
